EUROTHERM 3000 SERIES CONTROLLER

Procedure – Change to Remote Setpoint

➢ Start unit
➢ Wait until auto air purge cycle has completed
➢ Set setpoint to desired setting
➢ Press the Scroll button repeatedly until you see "R-L"
➢ Press the up or down arrow key to change the "No" to "Yes"
➢ Double press the Page button to return to the normal user screen –
  The Mokon controller is now looking at the remote setpoint

Note: "0" = Local Setpoint
      "1" = Remote Setpoint
